

Post-implant care

Dental implant treatments could change the quality of your life. With the same routine care you should give natural teeth, they can be expected to last for the rest of your life. Ask your dental professional for personalized and detailed care instructions.

- Good oral hygiene is essential to healing and long-term success of your treatment.

Dental implants,
like your natural
teeth, can last
a lifetime
if cared for
appropriately

Smile Confidently

Southern Implants is a leading provider of unique and innovative dental implant products for the top-end professional.

Our expertise in research, development and manufacturing of dental implants, allows us to provide innovative solutions that will reduce treatment times and improve patient outcomes.

The company was established in 1987. We aim to compliment the clinicians ability to deliver an exemplified standard of care to their patients.
